HIGH WYCOMBE & DISTRICT WAR MEMORIAL HOSPITAL.

Sixth Annual Report

For the Year ending December 31st, 1929.

The General Management Committee presents its Sixth Annual Report and Statement of Accounts for the year ending 31st December, 1929. It will be seen that this is of an equally satisfactory nature to those of previous years.

The number of In-patients treated is slightly fewer than in 1928, 480 as against 488, and of these 411 were Surgical and 69 Medical cases. There have been 322 Operations as against 314 last year. 1,003 Casualty cases not necessitating admission to the Hospital have been dealt with, and there have been 1,009 daily dressings. The respective figures for the previous year were 756 and 780, indicating an increasing use of the Hospital for treatment of minor accidents. The X-Ray Department has treated 949 cases as against 831 in 1928.

The average number of beds occupied daily during the year was 28, and the average number of days in Hospital per In-patient was 21.

49 Motor Accident cases—five of them fatal—have been admitted, an increase of 13 on those of last year. The average stay in Hospital for these cases has been 22 days.

The number of Contributory Scheme Members deriving benefit from the Hospital was as follows :—In-patients, 235 ; Casualties, 730 ; X-Ray, 431. The number of Contributory Scheme In-patients treated was about 30 less than the previous year, but the number of Casualty and X-Ray Patients shows a considerable increase.

Contributions were made in respect of 101 members of the Contributory Scheme treated in Hospitals other than our own, as against 78 the previous year, whilst 97 children of members of the Scheme have been treated at the local Clinics, as against 49 last year.

The financial support received by the Hospital during the last year has again been well maintained. The total receipts from all sources, after deducting the balance carried forward from last year of £1,414 8s. 10d., was £10,153 19s. 7d., as against £8,635 16s. 11d. for 1928.

The result of the Contributory Maintenance Scheme contributions is again most gratifying, the amount received this year being £5,518 7s. 10d., an increase of £291 15s. 7d. on the amount received in 1928.

Apart from the actual amount subscribed under the Scheme, the regularity of this form of income is a very great asset to the Hospital, and the Committee again records its very deep appreciation of this support.

The comparative ease with which this large sum is collected is in a great measure due to the cordial co-operation and assistance of the employers, their Office Staffs and the individual Collectors and Stewards, to all of whom the Committee extends its cordial thanks.

Annual Subscriptions have increased from £553 1s. 6d. in 1928 to £579 16s. 8d. Donations amount to £72 4s. 5d. which include £20 from Godstowe School and £30 from the King's Recovery Thank-Offering Fund, which comprised two subscriptions specially earmarked for this Hospital of £25 from the late Lord Carrington and £5 from Messrs. Colebrook & Co. Special donations of £35 17s. 2d. towards the Building Extension Fund and £81 10s. 0d. for the X-Ray Fund have also been received, the latter including a donation of £50 from the Stock Exchange Derby Mutual Subscription Fund (per Mr. H. R. Cooper).

Two legacies have been received during the past year, £45 from the widow of the late Mr. R. Buggins, and a further sum of £138 9s. 9d. from the Estate of the late Sir John Thomas.

The amount received from Collecting Boxes in Shops was £42 6s. 3d., as against £48 19s. 3d. for the previous year.

Congregational collections have increased from £94 1s. 0d. to £106 10s. 0d.

The amount received under the heading of "Entertainments, Flag Days, Football Matches, etc.," was £275 11s. 5d., as against £358 13s. 9d. for 1928, the difference being largely accounted for by the fact that no flag day was organised on behalf of the Hospital in 1929. The principal items were : Lady Lincolnshire's Football Challenge Cup Competition (per Wycombe Wanderers), £79 12s. 0d. ; Wycombe United Societies' Aerial Spinner, £61 16s. 0d. ; Bucks County Constabulary

Athletic Sports (grant), £61 0s. 0d. ; The Mrs. John Gibson Football Challenge Cup Competition (proportion), £24 1s. 9d. ; Wycombe Fat Stock Show, £7 18s. 6d. ; Beaconsfield Hospital Sunday Parade, £6 6s. 0d. ; Wycombe Bowling Club (Desseau Cup Competition), £5 15s. 0d. ; Prestwood Church Ladies' Sewing Guild, £5 ; Wycombe Cup Competition, £5 ; Root & Vegetable Show (per G. E. Stevens), £4 19s. 6d. ; Desborough Road Schools Harvest Festival Sale, £4 10s. 0d.

The Hospital Ball again proved a great success and contributed £188 4s. 7d. to the funds of the Hospital.

Fees received from Patients show a considerable increase, £1,663 13s. 7d. as against £1,202 8s. 10d. for 1928, about £340 of this increase being from Private Patients.

The total amount of interest received on Hospital Investments of Endowment, General and Special Funds, amounted to £846 8s. 0d.

The total net expenditure during the year, after deducting balances carried forward and transfers to Deposit and Special Accounts, amounted to £6,743 19s. 9d. The corresponding figure for 1928 was £6,529 7s. 2d. The increase is more than accounted for by an expenditure last year of about £290 on redecorations and repairs at the Hospital.

The balance of available income over expenditure for the year amounted to £4,824 8s. 8d., which has been allocated by the Committee as follows : Transfer to Deposit Account for investment purposes, £1,658 9s. 9d. ; transfer to Building Extension Fund, £1,343 16s. 4d. ; to Repairs and Renewals Fund, £105 19s. 10d. ; X-Ray Fund, £81 10s. 0d. ; carrying over a balance to 1930 of £1,634 12s. 9d., of which £1,126 5s. 4d., represents Contributory Scheme payments in respect of 1929 not received till after the close of the financial year.

The present position of the various Hospital Funds is as follows : Endowment Funds, £9,487 10s. 7d. ; General Purposes Fund, £6,169 3s. 8d. ; Building Extension Fund, £4,228 7s. 8d. ; Repairs and Renewals Fund, £2,261 15s. 2d.

It is with sincere regret that the Committee records the death of two members of the Governing Body—Lord Carrington and Mr. F. Joynson, J.P. The late Lord Carrington was a Trustee of the Hospital, and was, with his brother, the late Marquis of Lincolnshire, and his son, the present Lord Carrington, a joint donor of the magnificent site on which the Hospital is built. Mr. Joynson was a member of both the General Management and the House Committee, and the interest and ability which he displayed in the comparatively short time

during which he had been actively associated with the work of the Hospital is evidence of the severe loss the Institution has suffered by his untimely death.

The Committee has, with his consent, nominated Lord Carrington to fill the position of a Trustee rendered vacant by the death of his father.

During the past year the Hospital acquired from the late Lord Carrington an additional area of land about $\frac{3}{4}$ acre in extent adjoining the present Hospital site and having a considerable frontage to Queen Alexandra Road. In addition to preserving the privacy of the Hospital and its grounds, this site will afford an admirable position for the future erection of a Nurses' Hostel. The whole of the purchase money of £475 has been generously provided by two friends of the Hospital who desire to remain anonymous. The Committee desires to express its most cordial thanks and appreciation to these generous donors for their very handsome gift to the Hospital.

The Committee again records its high appreciation of the work of the Hon. Medical Staff and its continued loyal and efficient service in coping with the increasing work of the Hospital. During the year the Medical Staff has been augmented by the addition of Dr. F. C. Alton and Dr. J. M. Craig.

Since the issue of the last Report the whole of the X-Ray installation of the Hospital has been re-organised, the apparatus entirely renewed and extended, and the theatre enlarged. As a result the Hospital now possesses one of the most complete and up-to-date X-Ray Departments in the district. The total cost, including structural alterations, amounted to about £1,000, towards which special contributions to the amount of £655 13s. 8d. have been received.

The Committee expresses its thanks to Dr. Priestley for his continued supervision of the X-Ray Department, and for his special assistance in connection with its re-organisation, and also to Dr. Meredith Clements.

It is with regret that the Committee has to report the resignation of the Radiographer, Miss Scott, on her marriage. The vacancy has been filled by the appointment of Miss Hodges.

To the Matron, Miss E. M. Frow, and to the members of the Nursing Staff, the Committee tenders its cordial congratulations and thanks for their efficient administration and capable and devoted nursing.

Once again the Committee thanks Miss Jean Ferguson and members of the V.A.D. for voluntary nursing assistance during the year. Thanks are also extended to the members of the

Ladies' Working Party for valuable help month by month, to the Lady Visitors, to Mr. C. H. Berry, controller of the clocks of the Hospital, to Mr. Percy Prior, for the loan of and tuning pianos ; and to the " Bucks Free Press " for the insertion of weekly Notices. The Committee again acknowledge the work of the members of the Wycombe Branch of the St. John Ambulance Brigade, whose sympathetic co-operation is of great assistance to the work of the Hospital.

The Committee also desire to thank the Hon. Treasurer, Mr. H. Canning Robins, and the Hon. Secretary, Mr. P. C. Raffety, for their continued efficient services to the Hospital, and also the Auditors, Messrs. R. M. Blaikie & Co. The Committee again recognises the work of Mr. W. H. Smith, both in his capacity as Assistant Secretary of the Hospital, and as Secretary of the Contributory Maintenance Scheme.

The Committee also wishes to express its thanks to all who have during the past year in any way assisted the Hospital, either directly or indirectly, whether by personal service or by gifts of money or in kind, and begs for the continuance of the same generous support in the coming year.

Reference was made in the last report to the necessity of increasing the accommodation of the Hospital, and during the past year much time and attention has been given by the Committee to the consideration of this important matter. As a result, a scheme has been approved whereby the accommodation of the Hospital will be increased by 23 beds by the extension of the existing General Wards and by the erection of an independent block of single-bed Wards and one 4-bed Ward, in addition to increased Staff accommodation.

The estimated total cost of these extensions, including equipment, is about £11,000, towards which the Committee has available a sum of approximately £5,000, and it is proposed to issue a public appeal for donations towards the balance of £6,000 required.

In view of the urgent necessity for providing increased accommodation as soon as possible, the Committee has decided to proceed at once with the work, and it is hoped that the extensions will be completed and in use before the issue of the next report.

On behalf of the Committee,

JOHN GIBSON,

Chairman.

PARTICULARS OF CASES TREATED.

The following is an epitome of the Cases treated at the Hospital referred to in the foregoing Report :

Actinomycosis	2	Fractured Skull	13
Appendicitis and Obstruction (no operation)	10	„ Multiple	4
Acute Appendectomy	22	„ Patella	5
Appendectomy and General Peritonitis	7	„ Pelvis	1

REPORT OF THE Contributory Maintenance Scheme.

The interest which has been evinced in the town and immediate district in this Scheme since its inception in 1924 has been fully maintained during the past year, and whereas a substantial increase was recorded in the receipts for 1928 over the previous year, those for 1929 still show a similar tendency. Correspondingly there has been a larger number of Contributors who have taken the precaution of enrolling themselves under the Scheme to receive benefits from the facilities afforded by the Hospital both as In-patients or in the Casualty Department, a very large increase being shown in the latter as the result of minor casualties which have been sustained. Many verbal and written expressions of appreciation have been received from those who have been under the care of the Medical and Nursing Staff from time to time as to the skill and attention given, and this has been the means of considerably augmenting the number of Contributors.

As in previous years, the various Firms in the town and district, together with all kinds of business establishments, have almost without exception become associated with the Scheme, different methods having been adopted for the collection of the weekly instalments, the most suitable where it can be carried out being by way of deduction from wages by consent and the amount paid over once a month by the Employers, and another for the collection being made by a recognised member and similarly paid over. The Committee again take this opportunity of thanking the Firms and Office Staffs, together with the Collectors on a number of Firms and in various Districts, covering sometimes a wide area, for the very material assistance given and co-operation afforded in this respect. To meet the convenience of the Firms an evening has been set apart at the Guildhall on the first Tuesday in each month (the use of which has been kindly sanctioned by the Mayor) to receive the amounts so collected, and for the benefit of individual and unattached Contributors, or those not connected with any Firm or business establishment, the first Friday in each month is similarly set aside to meet their convenience, and judging by the large and increased number under this head, this has proved to be a great advantage.

Since its inception on the opening of the Hospital, the Scheme has made considerable progress, and the following figures

typifying the yearly increase will doubtless be read with interest, namely : 1924, £3,469 5s. 8d. ; 1925, £4,317 9s. 9d. ; 1926, £4,657 11s. 3d. ; 1927, £4,936 9s. 5d. ; 1928, £5,226 12s. 3d. ; and 1929, £5,518 7s. 10d. From these figures it will be seen that a steady advance has been made each year, and although as times goes on the increase in receipts may not be so great, it may safely be assumed with the continued growth of the town that the limit has not yet been reached. In the amount for the past year the sum of £323 6s. 9d. is included, being the contributions of individual and unattached members, this showing an increase over the previous year, when the amount was £275 19s. 3d. Upwards of 16,000 cards were applied for during the year, and although these were not all used and a certain percentage returned, the number in circulation is a considerable increase over the previous year.

From the General Report it will be seen that the total number of In-patients treated in the Hospital during the year was 480 (411 Surgical and 69 Medical), and of this number 235 came under the benefits of the Scheme for free treatment and full maintenance during the whole of the time they were in the Hospital. The number of operations performed in the Hospital amounted to 322, being an increase of 8 over the previous year, and of these a large number were included in the Scheme. The period of stay in the Hospital has been greater than previously, some extending over several months, by which it can be readily seen that considerable benefit has been derived by many who have been unfortunate in meeting with accident or otherwise, but who have taken the precaution to enrol themselves under the Scheme. In the Casualty Department the greatest increase is shown, 1,003 coming under this head, as against 756 the previous year, and of this number 730 were Contributors, 446 being more or less connected with wood-working and other machinery. In many of these cases continuous dressings and attention was necessary before final discharge, as many as 1,009 applications being attended to by the Staff as against 780 the previous year. In the X-Ray Department another increase is to be recorded, 949 cases having been treated under this costly process as against 831 the previous year, and of this number 431 were under the Scheme. The increase in the number of motor accidents is a serious drain upon the resources of the Hospital, 49 having been admitted as against 36 the previous year, five proving fatal, and of the number treated 17 were Contributors, and in some of these cases the stay extended over very long periods.

One of the principal features of the Scheme is the facility afforded to Contributors requiring special treatment at other Institutions on the advice of the Medical Staff, and the admission to other Hospitals of members sustaining accidents in other districts and under this head the sum of £431 15s. 9d. has been paid as against £288 14s. 4d. the previous year. The number of Contributors treated at other Hospitals was last year 101, as against 78 for 1928, and as an additional benefit, also included in the amount stated 97 children of Contributors were paid for and treated for Tonsils and Adenoids by the County and Borough Clinic Authorities, as against 49 the previous year.

The contributions received by the Employers of the various Firms and Establishments, together with the amount received from individual and unattached Contributors, are given as follows :—
